

Online Forum

Digital Solutions and Innovative Partnerships for Global Health

June 16th, 2021, 9 to 11:15am
Opportunity for networking until 2pm
Online (b2match)

The challenges of health systems in emerging and developing economies are manifold, as COVID-19 has shown with vehemence. The good news: At least as manifold as the challenges are the solutions innovative companies, start-ups and NGOs have come up with – often in partnership. Telemedicine provides patients with access to quality health services, community health worker programs reach patients in the most remote areas and digital learning platforms enhance the capacities of health workers.

This online event discusses current trends and opportunities for innovative ideas in global health in developing and emerging markets. It showcases good practice examples of digital solutions and innovative partnerships that strengthen health care in the global south and build on sustainable business models.

Get inspired and seize this unique opportunity to connect with Austrian and international companies, start-ups, NGOs and other stakeholders from the global health sector.

Registration and Participation

Pre-registration is now open [here](#)

Registration will close on June 14th. Participation is open for members of the Austrian Chamber of Commerce (WKO) and members of Global Responsibility.

For further information please contact Ilona Reindl (ilona.reindl@globaleverantwortung.at) or Michael Zimmermann (aussenwirtschaft.projekte@wko.at)
